

Graphic Designers

The following designers have an understanding of both our market and our labeling process, and can help you create a logo that will fit your image and look great on your products. They are recommended for your convenience, and are not affiliated with Preston Inc. in any way.

The prices quoted are for logos that can be delivered to us in JPEG, TIFF or EPS format and easily sized/incorporated into our existing label templates. If you are interested in a more complex label design project, please ask for a separate quote.
